Estimated Lead Time:
4 weeks

Estimated Downtime/Schedule:
22 days

Installation Facilities

- Little Rock, AR
- Reno, NV
- São Paulo/Catarina, BRAZIL
- St. Louis, MO
- Stuart, FL

Customize Your Elite II Flight Deck With Operational Enhancements

Once Falcon Elite II Baseline is implemented, the Honeywell FMZ-2000 Flight Management System (FMS) version 6.1 capability is one of several Falcon Elite II options to enhance your operational capabilities.

FMS 6.1 provides better access to more airports, increased safety, reduced crew workload and significant operational efficiency improvements for operators. The FMS software upgrade provides the capability for Localizer Performance with Vertical Guidance (LPV) Approach Procedures, Vectors to Final Approach, Update Magnetic Variation Table, Updated TOLD database (F900EX only), Navigation Database Enhancements and other features. Those advanced features result in enhanced safety, time and fuel savings and increased access to more airports.
