Dassault Falcon Jet's service centers are part of the service center network established for Falcon operators around the world. Company-owned service centers are located in Reno, Nevada; St. Louis, Missouri; Stuart, Florida; São Paulo - Catarina, Brazil; and Little Rock, Arkansas - also the site of our Falcon completions center.

A-PRO, in Deerfield Beach, Florida, and Midway Aircraft Instrument Corp, in Monroe, North Carolina, are Falcon's authorized component repair agents.

Dassault Aviation strategically positions company-owned satellite service stations around the world. These locations offer mobilized GoTeam support when customers are AOG, and can also provide line services on-site. Technicians, tooling, and a cache of spares are at the ready whenever and wherever customer needs arise.

Dassault Falcon Jet Stuart, a 25,000 sq. ft. facility at Martin County Airport/ Witham Field, is authorized to perform calendar and flight hour inspections on the Falcon 50, Falcon 2000 and Falcon 900 family of aircraft as well as the Falcon 7X and Falcon 8X. It has about \$1.5 million in tooling, equipment and Falcon spares in addition to a hangar, shop and offices for employees and customers.

Any time a Falcon Operator is AOG, a GoTeam can be dispatched through the Falcon Command Center 24 / 7 / 365 for the fastest response and solution:
