

ADS-B Out For Falcon EASy Avionics

Features & Benefits

- Improved ATC surveillance capability
- Allows reduced separation between aircraft
- Provides routing advantages for equipped aircraft
- Meets future mandates (FAA mandate is 2020 and EASA proposal is 2015 for new aircraft and 2017 for in-service aircraft)
- Support upcoming ADS-B In applications

Schedule

Estimated Lead Time:
3-4 weeks

Estimated Downtime/Schedule:
5-7 days

Installation Facilities

- Little Rock, AR
- Melbourne, FL
- Reno, NV
- São Paulo/Catarina, BRAZIL
- St. Louis, MO

Customize Your EASy Flight Deck With Operational Enhancements

Once EASy II Baseline is implemented, the ADS-B Out capability is one of many EASy II options to enhance your operational capabilities.

By removing dependence on ground stationed radar for aircraft position monitoring, ADS-B Out facilitates air traffic monitoring and allows a better use of airspace. This option is a fundamental element to the future of Air Traffic Management (ATM), as a further step after Elementary and Enhanced Surveillance.

ADS-B infrastructure is already installed in Southern Florida and will be deployed to 16 of the 20 enroute centers beginning with Jacksonville, Boston and Seattle. It will be deploying in Western Europe as well.

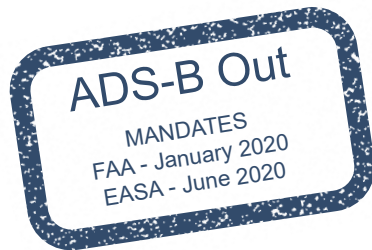

This option provides routing advantages for ADS-B equipped aircraft.

ADS-B Out

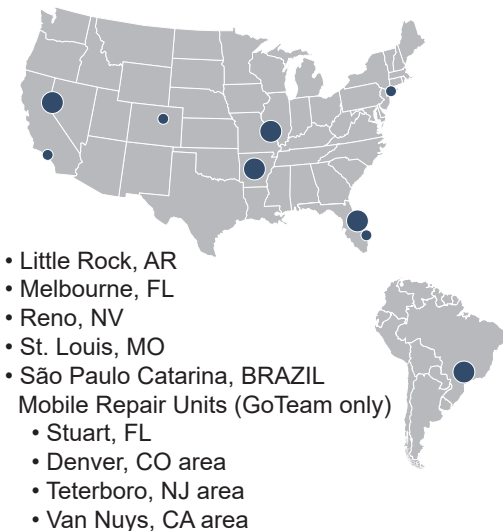

For Falcon EASy Avionics

Aircraft

Falcon 7X
Falcon 900EX EASy
Falcon 900DX
Falcon 900LX
Falcon 2000EX EASy
Falcon 2000DX
Falcon 2000LX

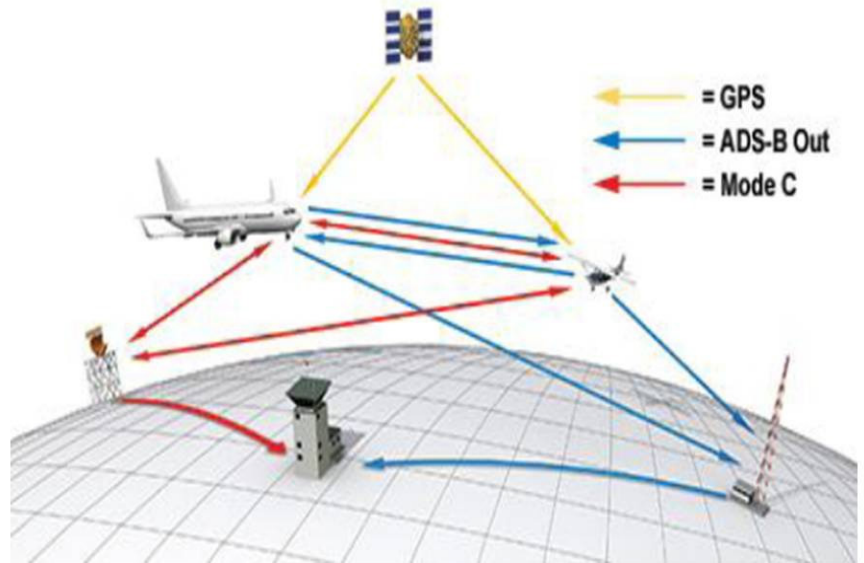

Dassault Falcon Jet Service Center Locations

The installation includes the following features:

- The GPS modules and GPS antennas are required to have been upgraded to now support SBAS services.
- The upgraded transponders are DO-260B compliant

Falcon Family

When you own or operate a Falcon, you become part of the Falcon Family. Throughout the life of your Falcon, our dedicated team of professionals will bring you the unrivaled skill, experience and passion to guarantee your satisfaction.

Falcon Family Benefits

- OEM trained technicians
- OEM approved tooling
- OEM supported solutions
- OEM accepted design standards
- OEM factory logbook sign-off
- 8 Convenient locations and an additional MRU area
- Priority service from Dassault Service Engineering.
- No sales tax on labor, materials, or vendor services.
- High-volume Falcon Spares discount for C-Checks
- No mark-up on Dassault parts
- No mark-up on Dassault service engineering
- Firm fixed pricing on discrepancies
