

Features & Benefits

- Fully supported OEM solution complying with forward fit standards
- OEM Engineering design and quality
- Customer centric CMS design
- Enables HD capability via LCD monitors
- Touchscreen switch controls
- Audio Video on Demand feature
- New Airshow 3D
- Addresses CMS obsolescence issues

Upgrade Your Falcon Entertainment System to the Venue Cabin Management System

Adapted from the latest in consumer electronics technologies, Venue offers unsurpassed content options. These include Audio/Video On Demand as well as higher audio and video fidelity to you and your fellow passengers. As those consumer technologies advance, Venue is ready – designed to support software upgrades with ease and cost effectiveness.

Venue's hardware is exceptionally compact because we've combined more functions into fewer boxes and used small, lightweight cables to distribute the system's high-definition video and data signals. The result: Your cabin can be fully loaded with today's most desirable digital media without an overload of infrastructure.

Venue's architecture supports video resolution up to 1080p and is fully compatible with high-definition standards such as HDMI, 3G-SDI and Blu-ray. The system is High-bandwidth Digital Content Protection (HDCP) compliant to ensure the truest display of any high-definition source. It also supports traditional analog video equipment, with the added benefit of high-quality video scalars to up convert standard definition sources to high definition.

Multiple Venue features ensure your system is always ready when you are. For superior maintenance support, it has centralized systems diagnostics with on-board, built-in and PC-based tools. Our system has the intelligence to reconfigure itself to maintain its high performance if any of its elements should fail. Relax and enjoy the flight.

Schedule

Estimated Lead Time:

8 weeks

Estimated Downtime/Schedule:

TBD

Installation Facilities

- Little Rock, AR
- Melbourne, FL
- Reno, NV
- São Paulo/Catarina, BRAZIL
- St. Louis, MO

Aircraft

Falcon 7X
Falcon 900EX
Falcon 900DX
