SCHEDULE

Estimated Lead Time:

90 days

Estimated Downtime/Schedule:

~30 days

INSTALLATION

- Little Rock, AR
- Melbourne, FL
- Reno, NV
- São Paulo/Catarina, Brazil

SEAMLESS CONNECTIVITY

Honeywell's Jetwave provides in-flight Wi-Fi that is fast, reliable and available anytime, anywhere and at any altitude. JetWave is the hardware that allows you to connect to Inmarsat's Jet ConneX, the fastest broadband available for business aviation. Jet ConneX is the first consistent high-speed broadband service to span the world.

From the moment you climb aboard until you touch down and taxi, only the Jetwave system delivers secure, high-speed Wi-Fi on all your devices that's as good as you get in the office or home.

Jetwave allows you to connect with the Inmarsat Jet ConneX Ka-Band network, the best broadband service available for business aviation. Jetwave and Jet ConneX have you covered from the minute you climb onto the aircraft until you climb off at your final destination – you don't have to wait until you're at altitude to connect. Enabled by four satellites covering the globe (except the poles), the Honeywell-Inmarsat partnership has you reliably covered, even on transoceanic flights.

AIRCRAFT

- Falcon 900C
- Falcon 900DX
- Falcon 900EX
- Falcon 900EX EASy
- Falcon 900LX
- Falcon 2000LX
- Falcon 2000LXS
- Falcon 2000S
- Falcon 7X
- Falcon 8X

Jetwave™ is the hardware that gives Falcons the ability to connect to Inmarsat's Ka-band network – Jet ConneX™ - for global, seamless, high-speed in-flight connectivity.
