

NOBODY KNOWS YOUR FALCON BETTER THAN DASSAULT

FEATURES & BENEFITS

- Industry leading comprehensive pre-purchase evaluation (PPE) of the aircraft, systems, and records.
- OEM experience and knowledge to assess the aircraft condition.
- Five OEM facilities, all with a standardized process, to accommodate your schedule, location, and tax advantages.
- Exceptional aircraft experience provides quick resolution to discrepancies.
- Accomplish import or export with PPE.
- Unique OEM solutions for long term support.
- Consists of a baseline PPE and customized options.
- After the aircraft is purchased, it can be customized with upgrades and OEM modifications for the new owner.
- Buyer receives an extensive PPE Report of the records research and aircraft evaluation.
- PPE process also used for aircraft lease return evaluation.

FALCON PRE-PURCHASE SERVICES

Dassault Falcon Jet service centers have implemented (created, designed, and established) the industry leading pre-purchase evaluation (PPE) process to ensure a seamless, comprehensive and smooth (stress-free and worryless) evaluation of a pre-owned Falcon aircraft. The process starts with the initial aircraft review to determine the modifications required to meet the new owner's standards and desires, to establish the offer for the aircraft. Dassault will provide a pre-purchase evaluation guide to assist the broker and buyer of the PPE pricing and options. Five qualified and trained facilities are available to accommodate the schedule, location and tax implications for the transaction.

The Dassault Falcon Jet service centers only work on Falcon aircraft so you are assured to get technicians that are highly trained and knowledgeable on the Falcon aircraft. They know how to spot discrepancies and correct them in a timely and cost-effective manner. The PPE process includes a thorough physical evaluation of the aircraft, aircraft system operational checks and a detailed records research. The results of the PPE are logged into a standardized database that produces a detailed PPE report.

For more information or to schedule a pre-purchase evaluation, call Natalie Buono, PPE Manager
