

Winglets

Falcon 2000EX EASy to LX Conversion

FEATURES & BENEFITS

- Winglets installation for increased efficiency
- Falcon 2000LX designation
- Eligible for all Falcon 2000LX Service Bulletins
- Interchangeability of modified components supported by Worldwide Spares
- EASA / FAA approval through Dassault Mod 2846

UPGRADE YOUR FALCON 2000EX EASY TO THE NEW FALCON 2000LX DEFINITION

Dassault Falcon Jet is proud to offer the unprecedented opportunity to upgrade the Falcon 2000EX EASy airframe to the Falcon 2000LX definition.

The winglets and winglet installation kits are purchased by the operator directly from Aviation Partners, Inc. (API). The winglets and associated components will be installed per OEM approved data via Dassault Aviation Mods.

The result is an aircraft with the commercial designation Falcon 2000LX with increased resale value and is eligible for all Falcon 2000LX specific Service Bulletins. Those Service Bulletins offer improved performance and operating advantages such as F2000EX-253 (Increase of Weight & Balance envelope for take-off).
